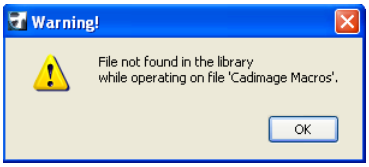
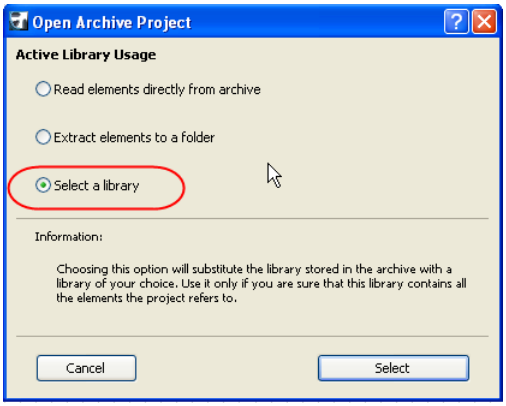
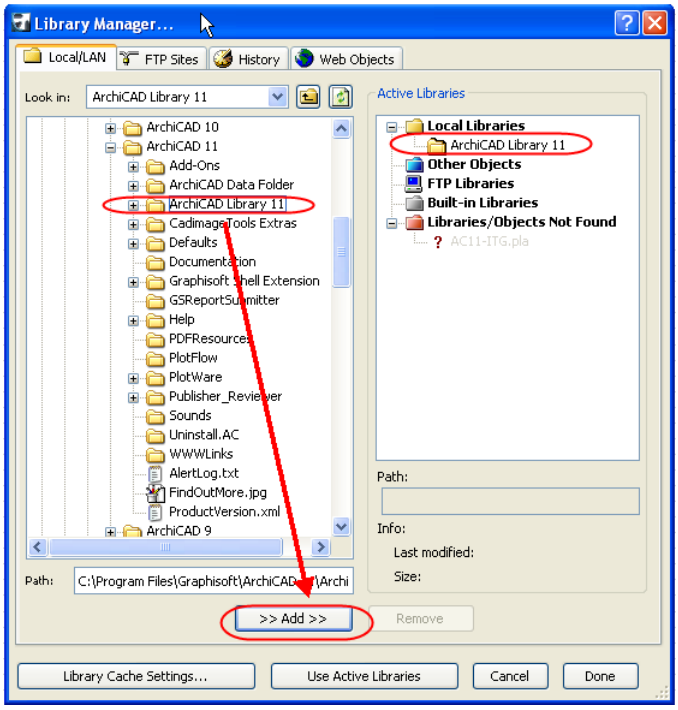
Interactive Training Guide ITG

The ArchiCAD Interactive Training Guides use .pla file format. Following the steps in the ITG **ArchiCAD 11 Basic e-Guide** may give you the following error message.



In order to get rid of this error message when you open the file it will ask you what you want to do with the archive. As you already have ArchiCAD installed choose **Select a library**, then in the next dialogue select your **ArchiCAD 11 Library** choose **>>ADD>>** and then click **Done**.





You will no longer receive the warning. Simply continue to use the Training Guide as instructed.
